Set routine.

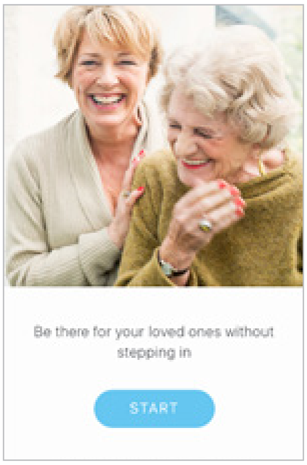
When AbiBird is installed, the **OPEN** button shows.

Select **OPEN** button (top right).

The *Start* page will open.

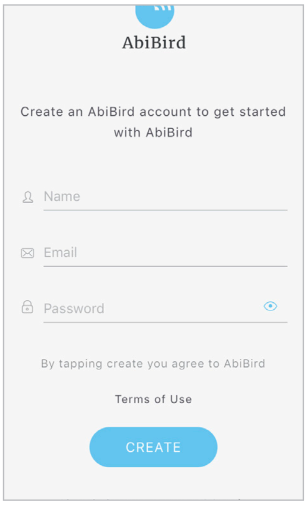


Be there for your loved ones without stepping in

On the *Start* page, select **START** button.

The *Create an AbiBird account* page will open.

Step 4: Create AbiBird account



AbiBird

Create an AbiBird account to get started with AbiBird

By tapping create you agree to AbiBird

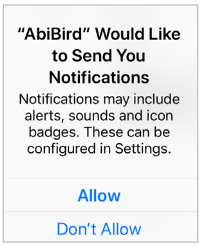
Terms of Use

On the *Create an AbiBird account* page, enter:

- your **Name**
- your **Email** address. This will be your Username and it's where your notifications will be sent.
- A 6-digit **Password**.

Select **CREATE** button.

NOTE: If you get a pop-up message to allow notifications, select **Allow** so you will receive notifications from AbiBird.



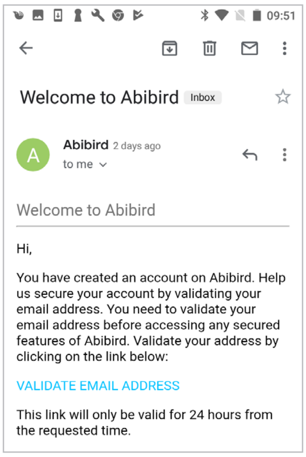
"AbiBird" Would Like to Send You Notifications

Notifications may include alerts, sounds and icon badges. These can be configured in Settings.

When the pop-up closes, select **CREATE** button again.

The *Devices* page will open and a validation email will be sent to your email address.

Step 5: Validate your email address



Welcome to Abibird Inbox

to me

Welcome to Abibird

Hi,

You have created an account on Abibird. Help us secure your account by validating your email address. You need to validate your email address before accessing any secured features of Abibird. Validate your address by clicking on the link below:

VALIDATE EMAIL ADDRESS

This link will only be valid for 24 hours from the requested time.

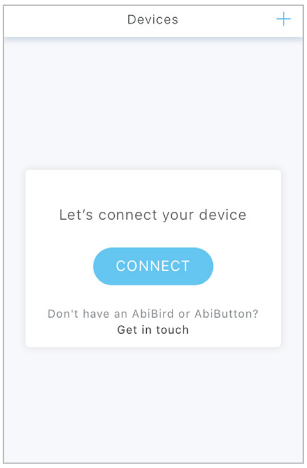
Before AbiBird processes your request and opens your iCloud account it first makes sure it has the right person by sending you a validation email, called: ***Welcome to AbiBird.***

Open and read the email, then select the **VALIDATE EMAIL ADDRESS** link.

You will receive a confirmation and your AbiBird iCloud account will be opened.

You can now return to the AbiBird app, where the *Devices* page displays.

That's it!



Let's connect your device

Don't have an AbiBird or AbiButton?
Get in touch

The AbiBird app is installed on your phone.

You have:

☑ Downloaded and installed the AbiBird app from the App Store.

☑ Opened the app, created an iCloud account and validated your email address.

Next Step

Your next step is to connect your AbiSensor to your AbiBird app.
See the guide: *How to Connect AbiSensor with App and Account*
